- ✓ Please register early, as space is limited

This three-day professional development workshop is designed to teach traffic engineers, planners and other transportation professionals good design principles for pedestrian and bicycle facilities such as intersection design, signalization, and dedicated bicycle lanes. Specific topics covered include:

Pedestrian (2 days):

- Planning factors for good pedestrian design
- Sidewalk design elements
- Pedestrian street crossings and signals
- Intersection design
- ADA compliance

Bicycle (1 day):

- Principles of bicycling and designing for bicycling
- On-road bikeway designs
- Intersection design for bicycles
- Signing and marking facilities
- Shared use path design

Participants also receive:

- *AASHTO Guide for the Planning, Design and Operation of Pedestrian Facilities* (\$90 value)
- *AASHTO Guide for the Development of Bicycle Facilities* (\$45 value)
- **Professional development credit: LAPELS, ASLA, APA**

Registration Cost	Public Sector	Private Sector	Community Members
3-day, Pedestrian & Bicycle	\$30	\$250	\$30
2-day, Pedestrian Only	\$25	\$200	\$25
1-day, Bicycle Only	\$20	\$100	\$20

A Project of the Regional Planning Commission and the Louisiana Department of Transportation and Development
